

ELASTASTRAP MATERNITY SUPPORT INFORMATION.

The following is technical medical background for our new Clinically developed and tested Maternity Support. This multi-use orthopaedic product has been designed and shaped to provide the most “comprehensive” support and comfort available with patented dual stretch material made from primarily “natural fibres”. The support provides progressive expansion support from 4-5 months until delivery. Convenient, discreet not bulky and worn underneath or over clothing, this support is also designed for use during ante-natal exercise classes and is ideal support when walking or jogging. It is available in four sizes- S,M,L,XL.

Pre-Natal Features-

- 1- Provides and delivers comprehensive abdominal lifting support with “pressure reduction” on lower pelvis, hip and back areas.
- 2- Helps ease lower back pain and allows adjustable support during the days and months up to full term.
- 3- Full adjustable support with expansion structured shape and re-enforced elasticised stretch support material.
- 4- Provides complete comfort with a breathable, ventilating non-sweat material for all day or night use.
- 5- Alleviates discomfort when sitting, sleeping and walking.

The Clinical design of this Elastastrap Support features the added advantage of continued usability after pregnancy as an abdominal wrap. This postpartum wrap helps to restore abdominal muscle tone and reduce tummy size back to normal naturally. Later on the support turned in reverse provides ideal back support when lifting the baby/child as weight increases.

Additional Post-Natal Advantages – “Re- Usability”

- 1- Designed to be used after child birth as a postpartum wrap.
- 2- Greater comfort after caesarean section surgery, reducing abdominal pressure and easing pain or discomfort.
- 3- Gives the back strength and confidence when carrying baby whilst at home or out and about.
Worn regularly reduces hip pain and improves muscular tone.
- 4- Tested and proven at Ante Natal Clinics, for support and comfort.
Sizes are – Small-66-92cm(26-36”),Med-79-107cm(31-42”),Large-87-122cm(34-48”)
XL-99-153cm(36-60”).
